

2.6.1. Program outcomes, program specific outcomes and course outcomes for all programs offered at the institution are stated and displaced in website of the institution (to provide the web link)

The college offers a total of 12 UG, 10 PG & 11 (6 M.Phil. & 11 Ph.D.) research programmes as on the academic year 2019- 2020. The humanities [Literature (Tamil & English) & History] and Commerce are offered at undergraduate and post graduate levels and Business administration is offered only at undergraduate level. Similarly, except the program – Zoology, all other science programs are offered at post graduate levels.

Primarily, the institution is instrumental in transferring a quality higher education among its students and research scholars majorly from rural and economically weaker sections of the society and improving them qualitatively with social awareness so as to convincingly prepare them to face the competitive world. In this context, it could also be viewed that the curricula of the college are designed by the Bharathidasan University, Tiruchirappalli such that the outcomes of each program offered by the affiliated colleges and various courses taught through each of such programs go- with the above needs of the graduates as well as employers.

While specific outcomes are intrinsic among each of the above programs, the institution strives to bring-in uniformity with respect to the elements of highest pass percentage, student ranks, 'nil' student drop outs, providing research aptitude/knowledge and bringing higher placements. In addition to employable skills (language / communication, team work, problem solving ability, planning & organizing / self management skills, learning), imbibing values inculcated by (independence, service to one another and to our communities, accepting diversity etc.), graduate attributes such as qualities, skills and understandings are expected to be the outcomes amongst the learners during their time with the institution; accordingly the affiliating university has framed the curricula and the college strives to ensure the outcomes.
